Fencing retrieval loop

- 1. Meaning:** explain the word in plain English and give one near-synonym or contrast.
- 2. Sentence:** write one natural sentence that proves you understand the word.
- 3. Paragraph:** use the word in a short paragraph where it genuinely improves precision.
- 4. Output:** use selected words in a new story, explanation, discussion or essay - not a copied model.
- 5. Retrieval:** close the list and recover the word after a delay. If it disappears, relearn it in context.
- 6. Transfer:** change the topic. A word is becoming yours when it still works accurately in a new situation.
